

VORTEX GROUP

COMPANY PROFILE

■ ABOUT US

Vortex Group is growing fast and is now a top company in multiple industries. We specialise in building homes, engineering, using renewable energy, and doing carpentry and painting. Our focus is on our people, creating a competitive atmosphere, and building a successful environment. Our goal is to be the best home building and engineering business in Australia, and that starts with making our customers happy.

Building houses isn't easy, but we promise to deliver exactly what we've promised. We understand the importance of your home, so we focus on quality, saving time, and keeping costs low to give you the best experience.

We use the latest technology and our expertise to solve any challenges you may have. Our products are for all types of buildings, from commercial buildings to tiny houses. If you're building your own home, we offer expert carpentry skills and personal service to make sure your investment is in good hands.

OUR COMPANIES

VORTEX DEVELOPMENTS

At Vortex Developments, we take pride in our wide range of projects. From creating brand-new buildings to restoring old ones with historical significance, from designing functional commercial spaces to building strong infrastructure, we do it all. We enjoy facing the different challenges that each project brings. We gather teams of experts to figure out the best solutions for every situation. Whether it's a new construction or a restoration job, we're here to make it happen smoothly and successfully.

Behind every successful building project is careful thinking. Business analysis helps us make smart choices that turn dreams into reality.

As a carpentry and millwork installation business, we specialise in creating and installing custom cabinetry, millwork, timber and light steel framing homes carpentry. Our skilled carpenters have years of experience crafting high-quality carpentry pieces. We aim to provide exceptional service and attention to detail, ensuring your satisfaction.

Whether you need a custom kitchen, built-ins, or any other carpentry work, we have the expertise to bring your vision to life. From small repairs to large-scale projects, we offer a comprehensive range of services for residential and light commercial properties in NSW.

As a full-service general contracting company, we handle everything from start to finish. Our team is licensed, insured, and dedicated to delivering top-notch workmanship at a fair price. With our network of tradesmen, we ensure your remodeling experience is stress-free and efficient, meeting deadlines and delivering value with every project.

Management Consulting Services for Framing Companies

Steel framing isn't just an alternative; it's the future of low-rise construction, blending strength and sustainability.

HOW DOES IT WORK?

ESTIMATING

Get a free quote from our experienced team of estimators with an expected lead time for your upcoming project.

DRAFTING & MODELING

Precision manufacturing using light gauge steel allows us to be able to design and build more durable structures which are built to last while manufacturing them quickly and efficiently.

Using FRAMECAD or Vertex software for light gauge steel framing, we complete an initial design for review by the client and make sure everything works and connects as it should.

ENGINEERING

Along with drafting, all of our designs are engineered, and certificate is issued with every single project we manufacture and deliver.

FABRICATION & ASSEMBLY

Our in-house team of assemblers will build your wall frames, trusses, and joists quicker than you can imagine getting your project underway and assure you will meet your deadlines.

DELIVERY & INSTALLATION

All our quotes include delivery to the site, so all you have to do is erect the structure using the connectors and assembly drawings that we provide. Vortex Group also provides installation by a professional framing team.

INSPECTION

To ensure the structure is safe and installed properly, the Vortex Group expert team member will arrange enough inspections on site.

VORTEX PAINTING

When it comes to painting, trust matters. That's why Vortex Painting Group is fully insured and CM3 registered, ensuring peace of mind for every project. Our professional team of painters excels in commercial, residential, maintenance, and interior & exterior painting services.

No project is too big or small for us. We take pride in delivering exceptional results, completing every job to the highest standard and your complete satisfaction. With flexibility in scheduling, including weekends and after-hours, we accommodate your needs with ease.

What sets us apart? Competitive pricing. We guarantee the best rates in the region, offering not just quality work but also affordability. Your clients can rest assured that their project will be completed flawlessly and within budget.

Choose Vortex Painting Group for excellence in painting services. Let us bring color and life to your spaces.

VORTEX SOLAR

Vortex Solar is among the fastest-growing solar companies, linking installers with customers and offering the lowest prices. We tailor solutions for your home's solar energy needs, prioritizing safety and understanding your energy requirements.

By choosing Vortex Solar for residential solar installation, you contribute to renewable energy efforts, reducing reliance on harmful fossil fuels. Our experienced team in NSW ensures successful installations, and our independence allows us to find the best equipment and ownership program for you. Our resources include:

Knowledge of local utility solar programs

Advanced design software

Top-tier equipment with warranties

Licensed installers competing for your project

Affordable ownership options

Make the smart choice for your home and the environment with Vortex Solar.
